Tableau Boot Camp: Prerequisites and Curriculum

About the Boot Camp

This Tableau Boot Camp provides hands-on training in building interactive, professional dashboards from start to finish. You'll learn how to connect to data sources, clean and transform data using Excel data sources, apply proper data types and aggregations, and design dynamic, well-formatted visuals using filters, sorting, themes, and branding elements. By the end, you'll be able to create polished, insight-driven dashboards ready for real-world business use.

Prerequisites

Tableau Public (Installation Instructions will be provided)

Topics Covered

Introduction to Tableau

Data source connections

Chart selections

Filtering and sorting data

Formatting (Colors, themes, branding, fonts, logos)

Dynamic dashboards

Aggregations

Data types
